

Interpave™

Units per sq metre: 40
Units per Pallet: 500
Weight per unit (Kg): 4.2

Overview

Segmental paving system, engineered for high volume traffic, heavy loading and poor foundation support.

National Masonry's Interpave's unparalleled performance stems from the innovative interlocking shape, high strength and long-term durability of every unit. Interpave's sixteen sided interlocking shape actually becomes stronger under traffic flow, locking together to provide a superior pavement with proven long-term stability.

Interpave™ provides all of the advantages of a cement based product including resistance to rutting, resistance to oil and petrol attack, plus the strength to withstand high point loadings, and combines them with all of the advantages of a flexible segmental pavement, including the elimination of shrinkage cracking and joint stepping, while maintaining ready access to underground services and easy rehabilitation.

Interpave™ also provides high abrasion and skid resistance.

National Masonry® Interpave™ offers engineers, architects, developers and town planners, an engineered, high performance paving system that has been specifically designed for heavy wheeled, high volume traffic and poor foundation support conditions.

National Masonry® Interpave™ provides outstanding durability and strength for applications such as heavy haulage and container terminals, airports, service stations and industrial sites.

Recommended for

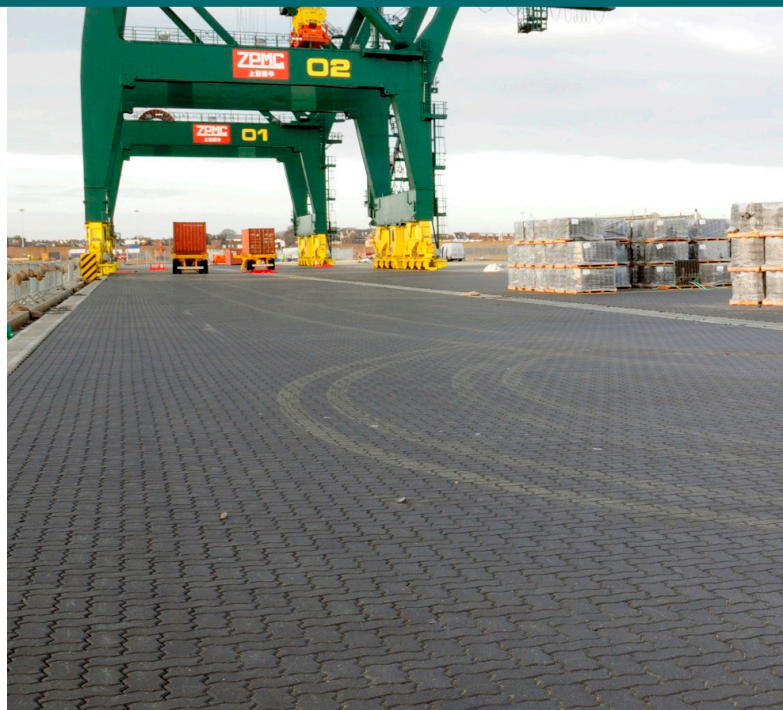

All high volume, high traffic applications.

- Outstanding performance ✓
- Proven durability ✓
- Excellent skid resistance ✓
- Attractive & cost effective ✓

Charcoal

Natural

Dimensions:	225 x 112 x 80mm
Tolerance (height/plan):	±2mm/±1.5mm
Manufacturing Standard:	AS/NZS 4455 1997
Content:	Cement, sand, stone aggregate, colour oxide
Characteristic Breaking Load:	10 kN minimum
Characteristic Flexural Strength:	4 MPa minimum
Abrasion Resistance:	7 maximum (AS/NZS 4456.9)
Slip Resistance:	Class W (AS/NZS 4586:1999)
CMAA Shape Category:	Type A
Colours:	Natural Grey, Charcoal (other colours made to order)

Pallet Return

All pallets remain the property of National Masonry®
